

Educational visit to Gujarat Biotechnology Research Centre (GBRC), Gandhinagar

DATE: 4th September 2025

VENUE: GBRC Gandhinagar

An educational tour to Gujarat Biotechnology Research Centre (GBRC) Gandhinagar was organised for the students of B.Sc. Semester-5 Chemistry (Major) and M.Sc. Semester 3. This academic exposure programme was organised by Dr. P. T. Trivedi and Dr. F. M. Bhabhor to the research centre. During the visit, students explored the state-of-the-art laboratories and learned about advanced research techniques including DNA sequencing, genome analysis, microbial studies, and analytical instrumentations such as GC-MS, HPLC, and LC-MS. Dr. Sanman Samova (Scientist-B), along with his research team, provided a comprehensive insight into various ongoing research projects and their applications in the fields of healthcare, agriculture, environmental science, and chemistry. The interaction enabled the students to relate theoretical concepts to real-world scientific applications.
